BEYOND CHEMICALS

People & Management

Indokemika's management team consists of seasoned experts with long-standing industrial experience. Under their guidance a workforce of over 300 people, of whom 50 percent is devoted to sales, marketing and customer support, ensures smooth and effective operations of our business.

Indokemika has the resources to serve and support its customer base efficiently and effectively.

Constant training and skill upgrade programs ensure that our personnel are adequately equipped with the necessary skills and knowledge.

A constant striving for improvement is reflected in everything we do.

We believe that the synergy of products, services, and people is the best way to maintain our company's leadership in this competitive industry.

Indokemika recruit and retain the best talents, therefore we invest in our attractiveness as an employer by facilitating professional growth and encouraging the achievement of work life balance.

We value diversity in our team and respect employees for their worth as individuals

Management team provides the timely navigation required to optimize competitive advantages, which in turn, offers added value to our customers.

Indokemika Jayatama is a member of the SEDEX organization. We fully comply with Responsible Sourcing Audit based on SEDEX Members Ethical Trade Audit (SMETA) standard.

SMETA is designed to reduce duplication of effort in ethical trade auditing, benefitting retailers, consumer brands, and their suppliers. It was developed in response to members demand for an ethical audit report format that could more easily be shared.

We are able to meet the requirements in Customer Code, Supplier Code and the National Law as well as the International Law, which include the Labor Law, Health and Safety Law, Environment Law and Business Integrity Law. With a variety of facilities such as warehouse, racking system, tank, laboratory and transportation, Indokemika has a proven track record of quality warehousing system.

Modern storage facilities as well as a large fleet allow us to deliver goods efficiently to our customers all across the Indonesian archipelago.

Special tank facilities, climate controlled warehouses and other facilities enable us to handle almost any kind of chemicals.
