

BEYOND
CHEMICALS

PRESERVING OUR PLANET

Indokemika Group was established in 1987 under the name of PT. Panadia Indah Dirgantara, which in 1992, renamed to PT. Indokemika Jayatama, a name that has been known until today as a leading chemical company in Indonesia.

Indokemika is here to enhance quality of lives. We distribute chemical ingredients and materials that made up usefull products in detergents, plastics, electronics, motorcycles, cars, phones, building, food, drugs; practically in almost all things we use and need everyday.

In the spirit of collaboration, Indokemika takes part in the industry's effort in sustainable development that meets the needs of present without comprimising the ability of future generations to meet their own needs.

For over a decade, Indokemika has been a leading supplier of chemicals to various industries in Indonesia. With a comprehensive product portfolio and supported by leading chemical producers from around the world, we are able to position ourselves among the biggest chemicals manufacturing and distribution company.

Well-equipped warehouses and tank-farms, a modern delivery fleet and presence in industrial centers of Indonesia allow us to deliver our products fast and efficiently. Six primary offices and six supporting offices throughout Indonesia ensure proximity and effective support to our customers. A customer-centric approach and flexible business arrangements are further advantages Indokemika offers to its customers.

A SUBSIDIARY OF SALIM GROUP

Indokemika is a subsidiary of Salim Group, under the Chemicals and Other Manufacturing Division.

Salim Group is one of Indonesia's biggest conglomerates, founded by Sudono Salim in 1949 with a focus on trading and distribution. The Group then started to engage in banking business in 1957, and gradually developed a private bank which has become the largest retail bank in Indonesia.

Salim Group are strategically diversified and include:

- Indonesia's largest integrated processed food company with leading brands and extensive distribution network
- Second largest cement group in Indonesia
- Second largest automobile manufacturer in Indonesia
- Major oil palm plantations and logging concessions

The Group has also been involved in property development and leisure industry for about thirty years. Its businesses include development of hotels and resorts, golf courses, real estates, commercial buildings, shopping centers, and industrial estates.

Salim Group owns interests in companies primarily in Indonesia but also in other countries such as Thailand, the Philippines, Hong Kong, Singapore, China, Vietnam, North America, Europe, and Australia.

INDOKEMIKA'S MILESTONES

Indokemika's management team consists of seasoned experts with long-standing industrial experience.

Indokemika was founded in 1988 as a distributor for Indonesia's leading group of chemical producers. Initially we were present only in the two main industry centers in Indonesia: Jakarta and Surabaya. Over the years we extended our product portfolio by forging partnerships with leading suppliers of chemicals from around the world.

Even during the economic crisis in the late 90's our business continued to thrive resulting in a healthy financial performance. And we look confidently into the future, as we will further strengthen our position as a leading supplier of integrative chemical solutions to the Indonesian market place.

PEOPLE AND MANAGEMENT

Indokemika's management team consists of seasoned experts with long-standing industrial experience.

Under their guidance a workforce of over 300 people, of whom 50 percent is devoted to sales, marketing and customer support, ensures smooth and effective operations of our business. Indokemika has the resources to serve and support its customer base efficiently and effectively.

Constant training and skill upgrade programs ensure that our personnel are adequately equipped with the necessary skills and knowledge.

We touch the lives of million in products that improve quality of life.

We believe that the synergy of products, services, and people is the best way to maintain our company's leadership in this competitive industry.

Indokemika recruit and retain the best talents, therefore we invest in our attractiveness as an employer by facilitating professional growth and encouraging the achievement of work life balance.

We value diversity in our team and respect employees for their worth as individuals.

Management team provides the timely navigation required to optimize competitive advantages, which in turn, offers added value to our customers.

OUR PRODUCT

Beauty, Health and Nutrition

Food Ingredients

Our food ingredients help ensure food supplies are plentiful, great tasting, nutritious and safe.

We deliver products that satisfy our customers' expectation of safety, performance, and convenience based on our long experience as a marketing-oriented food ingredients supplier.

Our products cover a range of diverse applications, which include Baking Premix, Beverage, Biscuit, Bread and Cake, Cereal and Porridge, Dairy, Confectionery, Dessert, Dietary Supplement, Fat and Oil, Flavor and Color Blending, Flour Milling, Fruits and Vegetable Processing, Meat and Seafood Processing, Noodle, Sauce and Ketchup, and Snack.

Pharmaceutical Ingredients

We supply safe and effective pharmaceutical ingredients that cure and enhance well being.

We are fully supported by our reliable sources from Asian and European countries to cater the market needs with our assorted Active Pharmaceutical Ingredients, such as Anti-Inflammatory, Antiemetic, Anticonvulsant, Anti-Diabetic, Antihistamines, Expectorants, and a wide range of other active ingredients.

Supported by our internal group businesses, we also supply various excipients such as Pharma-Grade Glycerin, Sodium Lactate, Lactic Acid, Titanium Dioxide and other nutritional products.

Cosmetics & Personal Care

We deliver quality cosmetic and personal care ingredients to enhance natural beauty and personal well-being.

With its tropical climate, Indonesia is well-suited for palm plantation. A plentitude of products is made from Palm Oil ranging from cooking oil and margarine to other derivates. These derivatives cater to industries such as Cosmetics & Toiletries, Personal Care, Flavor & Fragrance, and Toothpaste.

Our Polymer Chemicals

Coating & Inks

Our Coating and ink chemicals make creative, beautiful and colorful life possible.

We deliver pigments of various colors and shades for coating, ink, and polymer application. Additionally, we supply adhesion promoters for ink manufacturers, thixotropic agents for coating applications, catalysts for plasticizers and acrylates in polymers and catalysts for polyesters as well as in biocides and fungicides.

We work hand-in-hand with our trusted suppliers to provide outstanding support to our customers in developing solutions tailored to their individual needs.

Plastic Chemicals

We supply plastic chemicals that ensure safety for human use and the environment.

Indokemika maintains close relationship with world leading producers that supply Plastic Polymers and Chemical Additives products for Commodity Plastic, Engineering Plastic, Elastomer Plastic, Biodegradable Plastic, Composite Plastic, and Thermoset.

Our products cater to the different demands of various applications of consumer goods & houseware, audio & video cassettes, toys, packaging materials, tires and other rubber based products as well as many other product applications.

Rubber Chemicals

We deliver high performance rubber chemical to enhance human daily living.

Our product portfolio includes Natural Rubber, Synthetic Rubber, Fillers, Antioxidant, Accelerator, and many others that is applied to various customer industries, from automotive tires and parts to numerous rubber goods such as shoe sole and tire tread.

We support our customers with a global network and technical service associates with latest know-how and technology from Principals to improve product performance and economic competitiveness.

Water treatment chemicals

Our water treatment chemicals are efficient and safe, making clean water available and accessible for communities.

We focus on delivering chemicals to purify liquid in water and waste water treatment plants. Our products include coagulants to purify drinking water and industrial water, as well as coagulant aids and flocculants to increase performance and filtration.

Our team is supported by experienced personnel to provide outstanding technical support, guidance, and problem-solving service to our customers in developing solutions tailored to their individual needs.

General and Construction Chemicals

Infrastructure has been playing an important role in every day modern social life providing ways for interaction between individuals, families and society.

Whereas, housing and clothing are few among basic needs of human life. All together are closely related that will bring health, comfort and happiness to individual, families, and communities.

Indokemika takes part in improving people's modern everyday life as well as contributing to the country's development. We serve various industries by providing high-quality raw materials and additives to wide range of industries, such as ceramic, light concrete, precast, cement, and also detergent, home care.

OUR NETWORK

We understand that strategic presence, effective support, and timely delivery and are essential to our customers.

Indokemika has been building its network around that philosophy and will continue to do so as we grow.

Extended regional sourcing and distribution activities are carried out through our China, Malaysia, and Singapore offices.

OUR BRANCH

In addition to the Jakarta Office, Indokemika currently has five primary offices in Surabaya, Bandung, Semarang, Medan, and Makassar – and is supported by representative offices in Cirebon, Solo, Denpasar and Makassar.

WHY US

INVENTORY LOGISTICS CERTIFICATION

We are able to meet the requirements in Customer Code, Supplier Code and the National Law as well as the International Law, which include the Labor law, Health and Safety Law, Environment Law and Business Integrity Law.

With a variety of facilities such as warehouse, racking system, tank, laboratory and transportation, Indokemika has a proven track record of quality warehousing system.

To further enhancing our warehouse quality, we fully comply with the following standards and certification:

- Sedex Members Ethical Trade Audit (SMETA)
SMETA is designed to reduce duplication of effort in ethical trade auditing, benefitting retailers and their supplier.
- Authorized Economic Operator
Companies with AEO are routinely monitored and evaluated by Custom, therefore ensuring the performance quality of its holders.

Our warehouse holds both standard and special facilities, including specialized tanks for liquids and temperature-controlled storage for sensitive products, allowing us to handle and store almost any kinds of ingredients and chemicals.

With modern storage facility available in five of our branches supported by large fleet, we are ready to deliver our high-quality products efficiently to our customers across Indonesian archipelago.

OUR PARTNERS

Indokemika has always recognized that our success is based on our principals' products and the accompanying support.

Responsible

Distributing chemical responsibly (prudent, safety first, sustainable)

Improve lives

Sustainable practice

Sustainable practice

Fulfilling the needs of today without compromising the requirement of tomorrows.
